I-95 Restore the Corridor Project: Northbound Traffic Pattern Change Near US 202 Interchange

Wilmington – The I-95 Restore the Corridor project will require a slight modification to the current I-95 Northbound traffic pattern near Exit 8 (US 202). Starting on or around August 25, 2022 the left shoulder will be closed, the northbound left lane will be the through lane and the northbound right lane will be for traffic exiting at US 202. This minor change is to allow for traffic barrier work in the median and left shoulder. The traffic pattern is anticipated to remain in place through the end of September 2022. This change may increase traffic congestion in the area during peak travel periods. Motorists are encouraged to use I-495 to travel around the construction zone.

For more information and updates on the project, please visit www.restorethecorridor.com.
